What a Wonderful World

“New Sight, New Horizon, Unlimited Possibilities”

Connecting the World with Seamless Communication! Enjoy the Access without Boundary Life Style via WiMAX!

Today, to enjoy the life with access without boundary convenience is easy, no matter in an urban area or rural villages, whenever you're in the building or on the move. WiMAX is the answer.

Accton Wireless Broadband Corp. (AWB) offers a good variety of carrier-class IEEE802.11e-2005 wave 2 compliant Devices to fulfill various network deployment requirements, which include:

- Outdoor and Indoor IADs with integration of WiMAX, Ethernet, Wi-Fi, and voice into one devices
- Outdoor and Indoor CPEs with data and voice connectivities
- WiMAX Network Cards in USB, mini-PCI modules, or Cardbus

AWB's WiMAX CPEs and Network cards already passed IOT with most of Base Station in the market.

Visit AWB at booth Both #29, Taipei on April. 13-14, 2010
